

# enteliWEB modules

## FM Conference rooms

### Description

No information is a frequent cause of frustration. FM Conference Rooms is a tool facilitating the management of meeting rooms, conference rooms or lecture rooms. The module is installed on the server enteliWEB. Informations are displayed on public screens or directly in front of conference rooms. It is easy and intuitive to manage a large number of rooms. Automatic preview of content displayed on each screen allows instant verification of the information entered.
